Apply for the job as a launchpad - Software Engineer

To whom it may concern,

My name is Ha Duy Hau. In the search for a new job, I became aware of your company and now come to you proactively. I am very interested in the career opportunities you are offering. Becoming a software developer has been my goal for a long time. For this reason, I would like to apply for an opportunity to work with you as a Front end developer in permanent employment.

I graduated from Tampere University of Applied Science, Bachelor degree in Energy and Environmental Engineering in 12/2020. Despite graduating from a completely different study background, I became extremely interested in programming and I have found my passion in becoming a software developer. Since then, I have set a new goal to be a software developer. Hence, I have committed myself to online courses, intensively study in order to reach my goal. As the result, after the hard time, I successfully fulfill my skills in HTML,CSS,JavaScript (ES6),ReacJS,Redux. I have been practicing and implementing projects by myself. In addition, to gain more practical skill, I I worked as a front end developer trainee in NEKOPARTY NFT project. During the training, with the instruction and support from the team and my supervisor, I was capable of handling tasks including PSD to HTML,CSS with framework SCSS, ReacJS,Redux and Redux toolkit.

I am particularly attracted by the prospect of professional and personal development opportunities at your company. I would like to focus on a long-term perspective for my professional and personal development. Therefore, I am interested in working for your company. I already know some of your co-workers and got the impression that I would fit in well with the company.

I would like to use my experiences and abilities to fulfill tasks. I would like to emphasize my committed, precise và conscientious way of working. Former teammates and supervisors have valued me as a flexible, motivated, resilient and open-minded employee. In addition, I am characterized by strong problem solving skills, high willingness to learn, a lot of creativity, innovative thinking, good judgement và high sense of duty.

Thank you for your interest in my application. I will be available as soon as possible. I have attached with the application my CV and portfolio containing my projects for your review. If you would like to know more about me, I am lookin forward to an interview with yo in the near future.

Best regards,
